

Hold the Dates!

The DC City Nature Challenge **Bioblitz**, which covers the MD, DC, and VA metro area, is scheduled for **April 27-30, 2018**, the **Arlington County BioBlitz** is planned for **September 2018**.

Participants in each Bioblitz will use the [iNaturalist](https://www.inaturalist.org) app to survey plants and animals in local parks. In last year's DC City Nature Challenge Bioblitz, the metro area ranked 7 out of 14 participating cities, as measured by the number of observations. iNaturalist training opportunities will be announced as we get closer to the event. Here is a link to the 2017 event: <http://www.inaturalist.org/projects/city-nature-challenge-2017-washington-dc-metro-area>.

The Arlington County BioBlitz will focus on four to five parks. For observations recorded during Arlington's first ever bioblitz in 2017, see <https://www.inaturalist.org/projects/2017-arlington-county-virginia-bioblitz>.
