

City of Falls Church Native Plant Presale Order Form

Girl Scout Troop 1251 is pre-selling native plants. The plants come from native stocks and are grown at a Virginia nursery. **All plants are priced at \$10.00 and come in mostly 6" or 7" containers.**

Using Native Plants is a great way to begin transforming your yard into a watershed friendly environment. Native plants are often hardier and need less water and attention than transplants.

All orders must be received by May 9th with payment by either mail or drop-off at this address: 802 Ridge Place, Falls Church, VA 22046. We have a limited availability of stock - we cannot guarantee we will not run out of a particular plant so order early.

Orders will be available for pick up on Sunday, May 13th at Cherry Hill Park in the City of Falls Church (behind the community center near the basketball court). Please come by between 11am and 1pm. If you need to arrange another time please contact Melissa Teates (703-538-6961 or melanite@verizon.net). We can deliver plants within the City of Falls Church or adjacent areas of Arlington/Fairfax.

**Note: These plants are not specifically native to all sub-regions of Virginia. Please research the plants that you are interested in to see what is most suitable for your location and for the conditions of your property. You are also welcome to email your questions about specific plants.*
